Caution: NEVER allow PPS to check for new updates! Always install offline updates, it may result to completely uninstalling your Version of PPS and installing again.

33. Now, your version of PPS is up and running, all you have to do in order to make it work is manually activated. for how to manually activate your PPS please visit peugeotforums.com

Please note:

If by any chance, your outcome result isn't exactly same as it has been described here it can be due to couple of things:

- Your version of PPS is bad (simply download the version it is on this site)
- Problem with your windows XP, Which you can try installing PPS on different computers
